CommScope to Participate in the J.P. Morgan Technology, Media and Telecom Conference

HICKORY, N.C.--(BUSINESS WIRE)-- CommScope Holding Company, Inc., a global provider of connectivity and essential infrastructure solutions for wireless, business enterprise and residential broadband networks, plans to participate in a fireside chat at the J.P. Morgan Technology, Media and Telecom Conference on Wednesday, May 20 at 10 a.m. ET.

A live webcast will be available through a link on the Investor Relations page of CommScope's website at <http://ir.commscope.com>. The link will be live just prior to the start of the presentation and should be available for on-demand use within 24 hours after the event is complete. The webcast will be available from our website for a limited period of time.

About CommScope

CommScope (NASDAQ: COMM)(www.commscope.com) helps companies around the world design, build and manage their wired and wireless networks. Our network infrastructure solutions help customers increase bandwidth; maximize existing capacity; improve network performance and availability; increase energy efficiency; and simplify technology migration. You will find our solutions in the largest buildings, venues and outdoor spaces; in data centers and buildings of all shapes, sizes and complexity; at wireless cell sites and in cable headends; and in airports, trains, and tunnels. Vital networks around the world run on CommScope solutions.
